Subject: DPCC Pool Re-opening

Dear Members,

We are pleased to announce that the critically-needed pool repairs have been completed. We are targeting to reopen the pool by next week. A firm reopening date will be broadcast to all residents once all the city and county permits are closed.

Due to the social distancing guidelines and restrictions, we are making the following changes to the pool area to ensure the safety and wellness of our members and staff:

- A detailed entry and exit log of all guests will be maintained listing contact information and time stamped as required by the social distancing and facility reopening guidelines.
- All members must carry and present their own valid membership ID card. No guests will be allowed at this time.
- Mask covering of mouth and nose when walking around all pool and club areas.
- Pool furniture has been prearranged six (6) feet apart according to CDC guidelines. We ask for it not to be moved in any direction.
- Reserving pool lounges is not permitted.
- Residents must maintain the 6 feet distancing rule at all times, in and out of the pool.
- Club staff will continue the sanitizing process on all chairs, tables and others items on pool deck.

These rules and regulations are mandatory for everyone's protection and wellbeing. They will be posted, available and enforced at all times.

We would like to thank all of our residents/members for your patience regarding this matter. It's been a challenging year so far but we are confident these repairs and updates to our club will be well received in the value and enjoyment of our facility.

Sincerely,
The Management
